

# BESSEY® Product Training

**BESSEY® Tools North America**  
**VAS-23+2K: 23 ft Strap Clamp**

# Strap Clamp: VAS-23+2K

Simply better.

## Variable Angle Strap clamp (23 ft)

- ❑ Integrated spooling mechanism keeps excess strap neat & safely out of the way
- ❑ For added convenience the crank handle may be installed & used on either side of the take-up spool
- ❑ The variable angle corners (VAC) are easily added to or removed from the high tensile nylon strap as required.

# Strap Clamp: VAS-23+2K

Simply better.

## Variable Angle Strap clamp

- ❑ Wind up the excess strap, final tightening by turning the handle
- ❑ This then draws in on both ends of the strap ensuring pressure is applied evenly across all corners without distortion.
- ❑ Each VAS-23 comes with four of the VAC's standard
- ❑ Additional corner pieces may be purchased in packages of six, Part # "VAC-6".

# Strap Clamp: VAS-23+2K

## Variable Angle Strap clamp

- ❑ Each VAS-23+2K comes with four of the VAC's standard
