

# UniKlamp®

## Case clamp

The UniKlamp® - Its gentle touch jaws distribute the clamping pressure along the entire length of the rail. UniKlamp is ideal for sensitive work pieces and right angles.

### 1 Light duty universal clamping / spreading

For bench top projects with a lighter frame and rail. Easy to handle.

### 2 Gentle touch jaws

Distribute even clamping pressure. Made from impact and fracture resistant materials.

### 3 Extra-large contact surface, non-marring

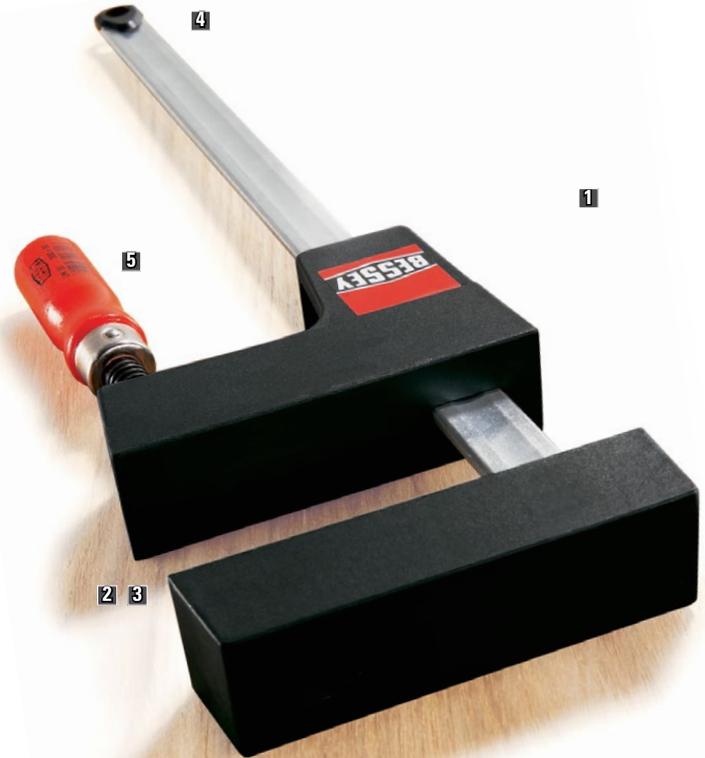

Over 11 sq. inches of even clamping pressure. Non-marring, glue repellent surface also resists paint and grease solvents.

### 4 Removable end-clip

For conversion to a spreader.

### 5 Ergonomic handle

Includes tried-and-true ergonomically shaped wooden handle.

### UniKlamp® case clamp

This light duty universal case clamp is an ideal tool for many jobs around the shop. For clamping or spreading, the lower clamping pressures spread over a wider surface are gentler on delicate work surfaces and, the light weight means less fatigue during glue-ups. Removable end clip for conversion to a spreader.

	Clamping Capacity	Throat Depth	Clamping Force	Approx. Weight
UK3.006	6"	3 1/8"	330 lbs	1.36 lbs
UK3.012	12"	3 1/8"	330 lbs	1.59 lbs
UK3.024	24"	3 1/8"	330 lbs	2.04 lbs
