

K Body REVO™ JR

Parallel bar clamps

The K Body REVO JR is a true parallel clamp that demonstrates that quality, value and performance does not always mean "BIG." Perhaps the only mid-sized parallel clamp in the market... and it delivers! High quality, lighter weight and a price point that makes sense. BESSEY®'S REVO JR is a cost-competitive parallel clamp with the same world-class quality.

1 Parallel jaws

90 degree jaws make cabinet work, frame ups, drawers and any other right-angle glue-up a much easier task.

2 Powerful jaws

With up to 900 lbs of clamping force, the REVO JR can handle almost any precision clamping task.

3 Lightweight

30-40% lighter than most parallel clamps. Lighter weight means less exertion, less user fatigue and greater productivity.

4 Quality construction

German engineering, German steel, assembled in USA facilities.

5 Value

High-end quality with a mid-size price. K Body REVO by BESSEY.

K Body® REVO™ JR parallel clamps

K Body® REVO™ JR is a mid-sized version of what makes the full-sized REVO parallel clamp so great. Parallel jaws, good power and a lighter relative weight, combined with a very competitive price point.

	Clamping Capacity	Throat Depth	Clamping Force	Approx. Weight
KRJR-12	12"	3 ¼"	900 lbs	2.86 lbs
KRJR-18	18"	3 ¼"	900 lbs	3.16 lbs
KRJR-24	24"	3 ¼"	900 lbs	3.40 lbs
KRJR-36	36"	3 ¼"	900 lbs	4.21 lbs
KRJR-50	50"	3 ¼"	900 lbs	4.91 lbs
