

# Spring clamps

For flexible, featherlight clamping

A clever variation on the standard spring clamp, VarioClippix® clamp handles hold fast at a constant setting for steadfast gluing bonds. Upper jaw is infinitely adjustable and opens as wide as 3" (100 mm), making the Clippix versatile enough to do the work of four different clamps. VarioClippix clamps function at any angle for optimal versatility. The moveable jaw and a spring clamp together let you quickly and easily modify clamping pressure from maximum force for feisty projects, to almost no force for delicate applications.

## 1 Sliding clamping arm

Rapid-action, polyamide, sliding top jaw infinitely adjusts to fit the project... the clamping capacity of a 4" spring clamp with the comfort of a 2" clamp.

## 2 Ergonomic 2-component handle

Soft, anti-slip two component handle for comfort.

## 3 Softpads

Soft-touch pads protect sensitive workpieces and eliminate marring of work.

## VarioClippix®, XV variable spring clamp

A unique design that allows you to adjust the sliding jaw, offering a much larger clamping capacity than a regular spring clamp.

	Clamping Capacity	Throat Depth	Approx. Weight
XV5-100	4"	2"	0.28 lbs

## VarioClippix®, XV double jaw variable spring clamp

A second sliding arm expands clamping capacity up to 6 1/2". This versatile clamp can be operated with one hand and is lightweight, functional and extremely stable.

	Clamping Capacity	Throat Depth	Approx. Weight
XV5-170	6 1/2"	2"	0.34 lbs
